AP Capstone - New

 CollegeBoard

 AP

What Is AP Capstone?

AP Capstone was developed in response to feedback from higher education. The two AP Capstone courses, with their associated performance tasks, assessments, and application of research methodology, require students to:

- Analyze topics through multiple lenses to construct meaning or gain understanding.
- Plan and conduct a study or investigation.
- Propose solutions to real-world problems.
- Plan and produce communication in various forms.
- Collaborate to solve a problem.
- Integrate, synthesize, and make cross-curricular connections.

DE vs. AP

Earning College Credit; which path is right for you?

Dual Enrollment

- a) College credit is awarded with completion of class with a grade of C or better
- b) DE courses are indicator of success at the college level because students have been tested in real college environments. Students in DE classes are treated as college students with high level of responsibility placed on them
- c) All state colleges and universities in Florida accept SJRSC DE Credits. Colleges and Universities in other states are very likely to accept them as well
- d) Admissions counselors smile upon successful completion of Dual Enrollment classes. However, earning a grade of C or lower could negatively impact admissions
- e) Class grade (GPA) transfer with you to college
- f) One DE courses equals 3 college credits hours
- g) Private colleges and universities are free to establish their own transfer criteria therefore it is best to check in advance pertaining to the schools DE policy

Advanced Placement

- a) College credit is awarded with a 3 or higher on the AP exam; high school credit is awarded by class grade
- b) AP tests are a demonstration of proficiency and competency in subject matter based on class grade and score on AP test. A high score on the AP exam signifies that you are a good student who can handle college level work
- c) All state colleges and universities in Florida accept AP credits. Colleges and Universities in other states are very likely to accept them as well
- d) Admissions counselors smile upon successful completion of AP classes. A grade of a C in an AP class is not considered negative when applying to college
- e) Class grade (GPA) will not transfer with you to college
- f) A high score on the AP exam could earn multiple college credits depending on exam and score.
- g) Private colleges and universities are free to establish their own transfer criteria therefore it is best to check in advance pertaining to the schools AP policy
