

Dear Parent/Guardian,

During this challenging time of transition, please know that the entire instructional team at Creekside High School is ready to support you and your family to ensure that we maintain the academic momentum your child experiences while working with their teachers each day. Please feel free to utilize this document to assist with any transitional needs, the support members listed below are ready to help when you have a question.

Creekside High School Academic Support Team:

Instructional Content	ESE Services and MTSS/RtI Interventions	Guidance Services and Mental Health Support	Technology (hot spots & school issued computers)
<p>Classroom Content and Materials:</p> <p>Refer to HAC/Schoology – please connect with your child’s teachers to make sure the student is set up for distance learning while student is out.</p> <p>Schoology Access:</p> <p>Marvin Jenkins Marvin.Jenkins@stjohns.k12.fl.us</p> <p>Elizabeth Scribner Elizabeth.Scribner@stjohns.k12.fl.us</p>	<p>ESE Classroom Support Case managers will contact you as needed</p> <p>ESE Administrative Support Case managers will contact you as needed</p> <p>MTSS/RtI Case managers will contact you as needed</p>	<p>School Counselors Ms. Kennair: A – C Amy.Kennair@st.johns.k12.fl.us</p> <p>Ms. Fry: D – He Kristin.Fry@st.johns.k12.fl.us</p> <p>Ms. Fornera: Hi – Me Jennifer.Fornera@st.johns.k12.fl.us</p> <p>Ms. Bunnell: Mi – Sa Ashley.Bunnell@st.johns.k12.fl.us</p> <p>Ms. Addair: Sb – Z Jenna.Adair@stjohns.k12.fl.us</p> <p>Mental Health Support</p> <p>Contact your student’s School Counselor if you need resources.</p>	<p>Technology Support Specialist</p> <p>Please e-mail Kyndra Ward.</p> <p>Kyndra.Ward@st.johns.k12.fl.us</p>

Please ensure that your child logs into their Schoology account to continue their academic pathway. Let us know if you have any questions or challenges, we are ready to support when needed.

Thank you,

Creekside Administration

Information For Quarantine of Close Contacts

What makes someone a close contact?

- You are a close contact of a COVID-19 positive individual if, from 48 hours before their symptoms began, the person with COVID-19:
 - Lived in your home or stayed overnight with you
 - Took care of you or you took care of them
 - Stayed within 6 feet of you for 15 minutes or longer
 - Exposed you to their body fluids or secretions (e.g., coughed or sneezed on you)

If during the student's quarantine due to an exposure, I take my student to get tested for COVID-19 and we receive a negative test result, can the student return to school?

- No, the student may not return to school. Your student must quarantine for the full 14 days, as symptoms can develop at any point during the incubation period. (Example: A negative test results on day 3 does not ensure a negative test result on day 12.)

If my student is considered a close contact of someone who tested positive for COVID-19, do I need to get tested?

- No, you are not required to get tested, but your student is **required to self-quarantine for the full incubation period of 14 days** and monitor for any symptoms. If during the 14 days, your student develops symptoms you should contact your family physician for guidance on testing and treatment recommendations.

Does anyone else in my household need to quarantine at this time?

- No, as long as your student does not develop symptoms, no one else in the household is required to quarantine. Members of the household would be considered "contacts of a contact" and there are no CDC recommendations, as you are twice removed from the positive individual.

What if I have been identified as a close contact with a COVID-19 positive individual, but have already had COVID-19 within the last 90 days? Do I still need to quarantine?

- No, you do not need to self-quarantine as long you are completely recovered from your illness and remain free of COVID-19 symptoms.
- If your student has been asked to quarantine for 14 days but has tested positive for and recovered from COVID-19 in the past 90 days, please obtain a copy of the test results and present them to the clinic nurse.
